

The image is a composite of two aerial city views. The top half shows a modern skyline with a prominent clock tower and various skyscrapers under a hazy, sunset-colored sky. The bottom half shows a more traditional urban landscape with older buildings, a large domed structure, and a modern glass-roofed transit station in the foreground. A solid blue horizontal band spans the middle of the image, serving as a background for the company logo.

TOR | TRANSPORT CONSULTANTS GROUP

A company with over 25 years of history and experience

Transport Consultants
Group **TOR**

Our essential tool of work
is **knowledge**

We built our market position by supporting
clients from the railway sector. Today, we
specialise in **6 broad industries**:

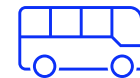

Railway

Smart cities

**Sustainable
mobility**

**Public
transport**

Aviation

Infrastructure

There are **two business divisions in our
structure**:

**Consulting
and strategies**

**Media and
events**

Road Traffic Safety

Consulting and strategies

PROBRD is a service aimed at reducing accident rates on roads and increasing the detection level of potentially dangerous situations, as well as improving road traffic safety. Utilizing **drones** and **artificial intelligence**, the service primarily supports accident prevention measures.

The service encompasses various **functionalities**:

- ✓ detection of road users and traffic monitoring;
- ✓ analysis of user trajectories to improve road design;
- ✓ speed and acceleration analysis for collision risk identification;
- ✓ analysis of accidents and conflict situations to improve road safety.

Road traffic safety

- Service supporting management of road traffic safety

Consulting and strategies

01

Utilization of simulation analysis

Micro - simulated conflicts and macro - traffic distribution in the network to **assess changes in road safety** due to changes in the road network

02

Evaluation of the efficiency of safety improvement measures

Utilization of proactive assessment of traffic hazards (Crash/Conflict Modification Factor)

03

Road traffic analysis

Traffic volume and its variability, average speed of traffic flow, directional distribution etc.

04

Detection of traffic hazards along with recommendations for mitigating them

Target solution improving safety

Check out our portals:

Industry portals

Rynek Kolejowy (Railway Market Portal) is the largest railway industry portal in Poland and Europe. Its thematic scope includes issues such as freight and passenger transport, railway infrastructure, and rolling stock.

Rynek Infrastruktury (Infrastructure Market Portal) focuses on topics related to the construction sector, intermodal market, and logistics.

Transport Publiczny (Public Transport Portal) covers not only public transportation but also mobility, urban life quality, and new technologies.

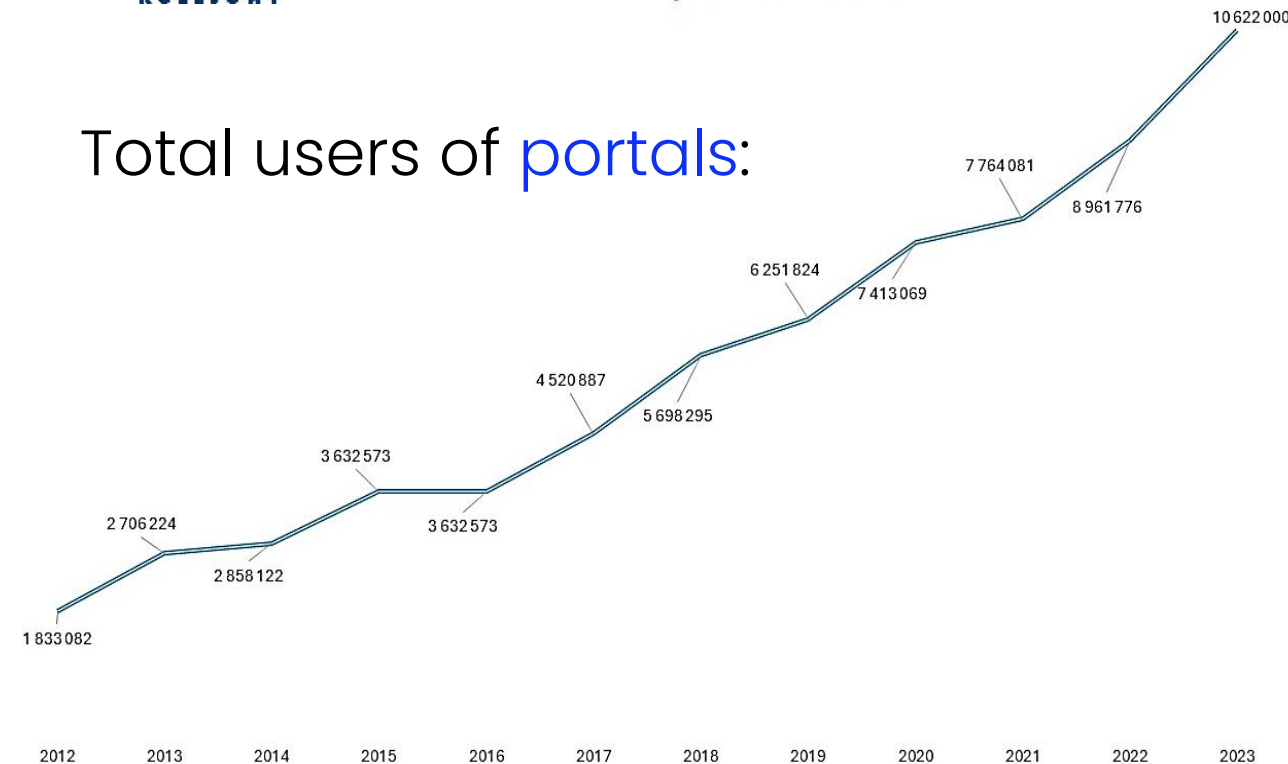

Rynek Lotniczy (Aviation Market Portal) addresses issues concerning airlines, passenger needs, as well as the technical infrastructure of the sector, Central Communication Port (CPK), and cargo traffic.

The brand's recognition is confirmed by the data - over a million users monthly on the websites and over 100 thousand followers on social media.

Media and events

Total users of portals:

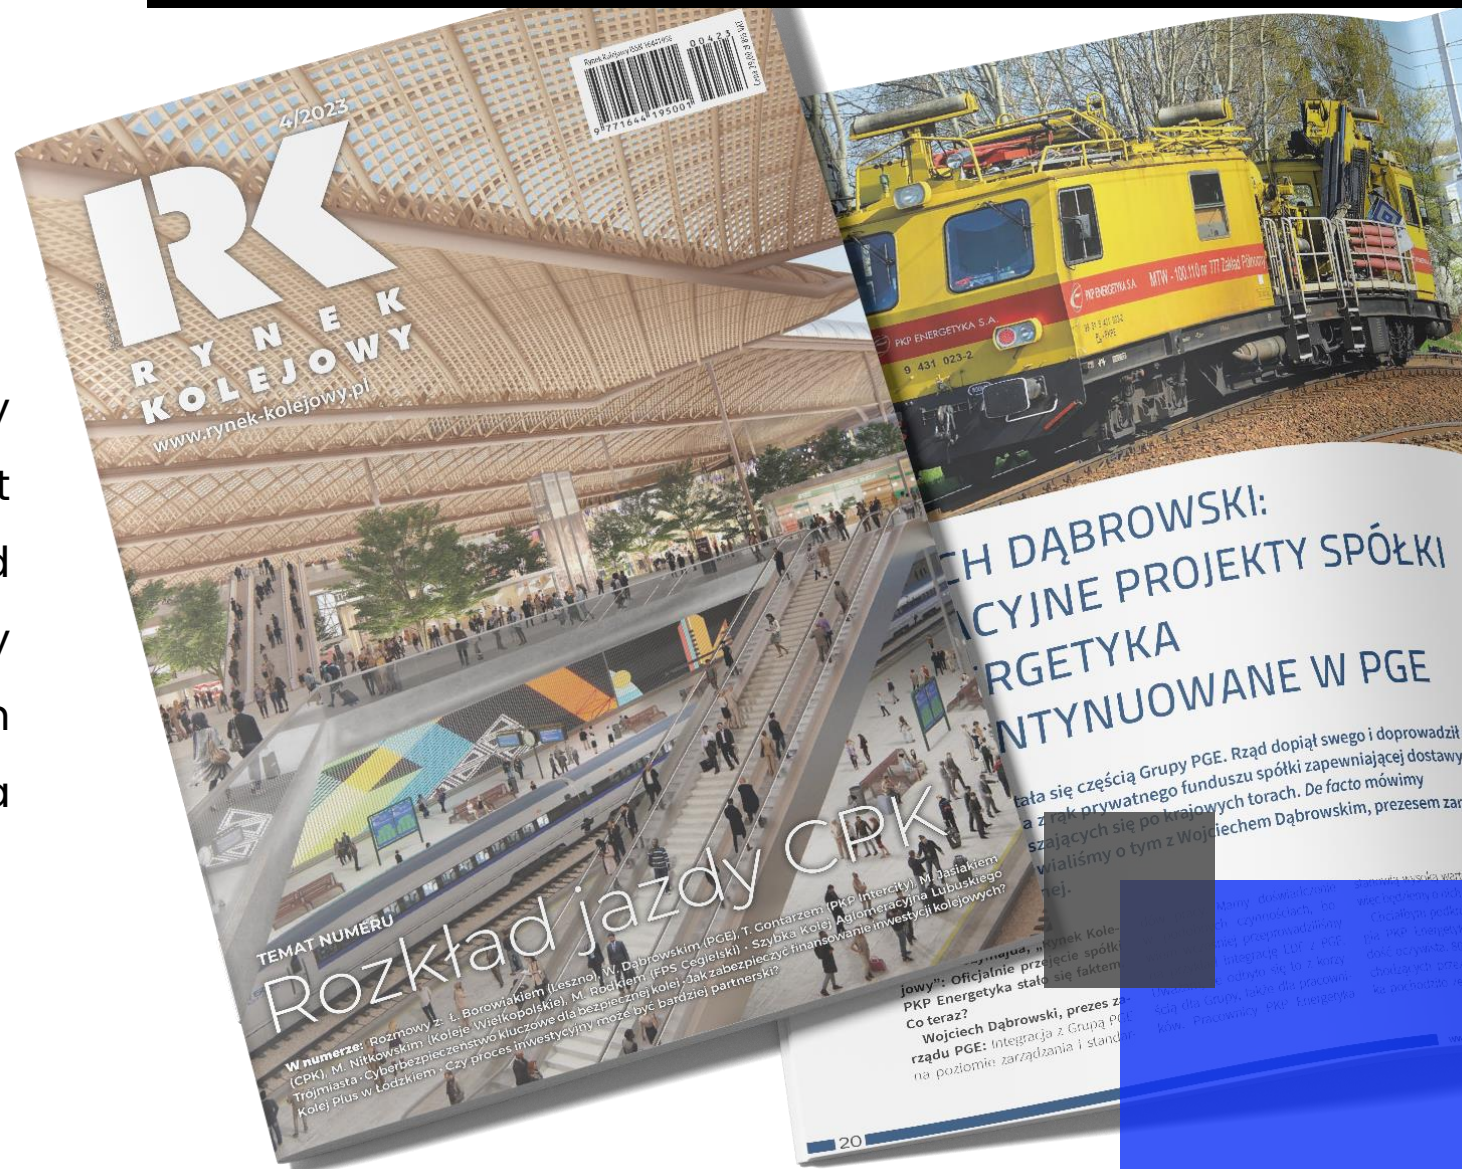

Montly Magazine

Railway Market

Rynek Kolejowy is a printed industry monthly magazine primarily aimed at executives of rail transport companies and their employees, as well as railway enthusiasts. The magazine has been published for over 20 years, with a circulation of 1300 copies.

TOR | KONFERENCJE

Trainings

Media and events

TOR Academy is a dynamic platform aimed at developing knowledge, competencies and networking.

Since 2007, we have been organizing:

- ✓ **Workshops:** practical meetings where participants gain specialised knowledge in selected areas;
- ✓ **Training sessions:** events aimed at broadening knowledge in specific fields.

The workshops and training sessions are conducted by experts from the TOR group of companies as well as renowned external lecturers with extensive experience.

The current offer is available on the [TOR Konferencje](#) website. We encourage you to contact us to prepare an individual offer and discuss collaboration opportunities.

Thank you!
